Course Overview: What is MS Graphic Art all about?
This quarter long course is aimed at exposing art students to new digital and hands on art making skills, materials and techniques. Students will be encouraged to challenge themselves, think creatively and critically and take risks through art making. They will be provided opportunities to work independently as well as collaboratively.

Units and Activities: What will we be learning about and doing in this course?
Throughout this course we will identify new and definitive ways to solve thought provoking visual problems. We all see the world in very different ways and we allow the outside world to influence and activate our internal thinking. We will be motivated to artistic expressions as we reflect on the world around us.

Students are expected to:
- be receptive to new ideas; the seeds from which new experiences grow
- be flexible
- take risks while avoiding limitations
- aim for surprise and work hard to achieve excellence

Below is an outline of the units for this course. This syllabus is organic in nature and and the following units may change to best meet the needs and interests of our class.

- Storage/Organization of Files
- Filters/Stamps and Other Fun Stuff
- Elements and Principles - Mini Series **First Quarter Summative**
- Graffiti Art - **Final Summative**
Standards: What knowledge and skills will I gain by the end of this course?

Anchor Standards: This course will assess the knowledge and skills students build in key Anchor Standards. A student will have multiple opportunities to show their proficiency in each Anchor Standard. Below, each Anchor Standard for this course is named and described.

- **Create:** Use the artistic process to conceive and develop new artistic ideas and work.
- **Present:** Demonstrate the ability to effectively interpret and share artistic work.
- **Respond:** Understand and evaluate how specific arts convey meaning.
- **Connect:** Connect artistic ideas and works of art with personal and external meaning.

Course Standards: This course builds student knowledge and skill using the Visual arts standards. The course standards for MS Graphic Art are:

1. **Create:** Envision: Use multiple approaches to begin creating a work such as planning, exploration and thumbnails.
2. **Create:** Refinement: Make a work that is resolved and shows evidence of revisions and refinement. I revise, refine, discuss choices in response to feedback.
3. **Create:** Develop Craft: Properly use tools and materials. I execute technique with skill. I maintain a clean and safe studio environment with care for my space and materials.
4. **Create:** Stretch and Explore: Challenge myself to explore new ideas or try out new media. I demonstrate a willingness to innovate and experiment.
5. **Create:** Engage and Persist: Actively and mindfully engage in class activities. I develop the focus conducive to working and persevering at art tasks.
6. **Create:** Express: Artwork communicates an idea, feeling or personal meaning. I consider other viewers.
7. **Present:** I demonstrate craftsmanship with my exhibition. I consider the most appropriate way to exhibit the work based on context.
8. **Respond:** Describe: I can describe a piece of art without resorting to opinion and my description provides a clear picture of the work.
9. **Respond:** Observe: I attend to visual contexts more closely than ordinary looking requires, and thereby see things that otherwise might not be seen.
10. **Connect:** Connect artistic ideas and works of art with personal and external meaning.

Assessment of Learning

Assessment Types:

Three types of assessments will be used to determine if you have gained the necessary knowledge and skills of this course: Formative assessments, Summative assessments, and Habits of Work for Learning. Each is briefly described below:

**Formative Assessments:** *Formative = Forming my knowledge and skills.* Formative Assessments receive a weight of .1 in the overall grade. Formative assessments are information for teachers, students, and parents on the progress students are making as they practice gaining knowledge and skills found in Anchor Standards. Teachers use the results of these assessments as data to understand individual student learning needs, adjust instructional pathways, and modify lessons to help students better meet course standards. Students use the results of these assessments to determine how they are progressing and to plan steps to ensure their success.
**Summative Assessments:** Summative = Summation of my knowledge and skills. Summative Assessments can receive three different weights: 1, 1.5, or 2 depending on the size of the assessment, and therefore have the greatest impact on the Overall Course Mastery Grade. Summative assessments are used as a measure of independent student achievement in Anchor Standards. Throughout this course, summative assessments provide benchmark student achievement data. A summative assessment will always have clear scoring criteria for students to understand how they are performing.

**Habits of Work for Learning:** Habits of Work for Learning (HOWLs) are skills and dispositions that are essential to the learning process but do not provide evidence of what a student knows or can do in relation to content. WUHSMS teachers work to foster Habits of Work for Learning in three categories: preparation, participation, and perseverance.
